3	1	160m²	4,000m²	N/A

This is a reformation project set near mascivenda and barinas. It is part cave house and part house in need of total restoration - there are two separate title deeds, one for each. The combined area of both properties is approximately 160m2. Both are set on a plot of approximately 4000 m² Which is ideal for creating a private retreat/garden area or indeed living off the land should you desire. There is a long track access (approximately 4 km), no electric or water at the property. please note this is a total reform there are currently no bedrooms or bathrooms but there is space to make at least 3 bedrooms...(Ask for More Details!)
