200m²

The single-family villas have spacious and welcoming spaces with an avant-garde and useful design, as well as a relationship of superior quality materials, constituting a modern home with large plots and the best possible finishes. You will be able to enjoy a luxury residence with unique and resistant materials in which every detail takes centre stage. The aesthetic and ecological identity of the villa's materials show a high degree of sustainability and contemporaneity. The balance between the luminosity of the environment and the structure of the windows makes the light become an experience for the senses. The villas boast a 200m² plot, a modern configuration, a tailor-made home dimension, and...(Ask for More Details!)
