Introducing a unique SPA complex in the city of Torrevieja – one of the most popular resorts on the Costa Blanca coast. The facility is designed to accommodate up to 216 guests simultaneously and is located on a total area of 1,354 m², of which 336.5 m² are occupied by technical and storage rooms, fully ensuring the efficient operation of the complex. The project was created as a modern space for relaxation and rejuvenation, combining various wellness zones: large swimming pool, traditional sauna, two hammams, five saunas of different format, two jacuzzi, arena, solarium, comfortable relaxation zones. A professional design project with visualizations has been developed, all project documentation has been approved. Necessary licenses and approvals
